## THE TEACHERS' PLUS

WHAT THE M. H. S. INSTRUCTORS WILL DO AFTER SCHOOL.

## TO ORGANIZE 8 CLUBS

**Wide Range of Student Activities Under Direction of Faculty Will Broaden Their Abilities.**

What the teachers of the high school will do after they are through teaching each day was announced to the pupils at their regular Tuesday assembly this afternoon. Prospects for a worthwhile year of special activities is predicted by the leaders in the work

Eight clubs ranging from debating to "topping" hurdles and from campfires to dramatics will be organized as soon as possible by the teachers who will direct and advise them. Members of these eight clubs will meet at least once a month in a general social evening. The regular meeting will be held in the afternoon after school.

The sessions of school will be dismissed ten minutes earlier on Monday, Wednesday and Friday afternoons so that so far as possible all the meetings will be held on those afternoons. This plan was considered preferable to having the pupils come back after supper.

George P. McGrew, principal of the high school, will be advisor and director of the Boys' Glee club, assisted by Miss Mary Rooker. The girl's chorus will be advised and directed by Miss Rooker. The boys will meet every Tuesday and the girls every Thursday. These clubs are open for membership to all students in the high school.

The other musical organization of the school will be the Orchestra club, which will be under the direction and advice of Miss Dora Carpenter. It will meet every week at a time to be decided upon by the members.

The dramatic club, which will be given a new name this year, will be open only to girls. Miss Alicia Keeler and Miss Virginia Robertson, teachers of English, will direct its work, which will be open to all girls having an inclination for elocution and dramatics. It will meet every other Wednesday.

The Debating club, which will also be re-christened into "Royal Cynics," or some more attractive name than debating club, is open to boys of the junior and senior classes. It will meet every other Wednesday with the purpose of giving training in all forms of parliamentary drill and public speaking. Mr. McGrew will direct it.

Miss Helen Anne Wright will continue her work among the campfire girls. Miss Laura B. Hawkins will have charge of a second division, and each of the advisers will receive help from the other teachers when needed. The two camps will meet weekly at a time to be decided by the members.

The Boys' Athletic club has already been organized and is playing a schedule of base ball games now. It is planned to get several teams from out of town to play a high school team picked from the three teams which are competing in the intra-school schedule. It is possible that Pickering high school will play here Friday.

When the weather gets too inclement for base ball, basket ball will be started in the gymnasium.

A boys' gymnasium class will be formed by Paul Becker, director of athletics, which will exercise all the boys in a series of gymnasium drills previous to basket ball each afternoon. After that all boys not caring for basket ball will be excused. The regular meetings of the class will be only three times a week. Mr. McGrew will assist Mr. Becker.

A similar arrangement will be followed in the girls' athletics, under the direction of Miss Wright and Miss Keeler. The girls will meet only twice a week, however.

Although it is considered advisable to have a teacher associated with all of the clubs, each one of them will be organized as soon as they meet, and the direction and management will be left in the hands of the students as far as can be. The chief aim of the work is to develop the abilities of the pupils, and it is felt that giving them as much responsibility as possible is one of the best ways of bringing out latent talents.

The social evenings once a month and perhaps more frequently during the winter months will be a kind of federation of high school clubs in which all the members will meet for social purposes. All the students in the high school will be invited to each of these meetings, but they will be primarily for club members.

Open sessions of most of the clubs will be given during the year with special programs to be prepared in the spring. Miss Lois Halley will be in charge of the social evenings and other collective activities of the clubs.

### NIECE DIES AT GREEN BAY.

Nick Schumacher received word this morning of the death of his niece, Miss Ella Schumacher, the daughter of Mr. and Mrs. John P. Schumacher of Green Bay, Wis., who died early this morning. The funeral services will be held at Green Bay Friday morning. Several of the Maryville relatives will probably attend.

### OFF TO REPUBLICAN MEET.

**J. S. Shinabargar and W. R. Tilson to Join G. O. P. Love Feast in St. Louis.**

J. S. Shinabargar and W. R. Tilson left last night for St. Louis to attend the Republican love feast. A banquet will be held this evening and many Republican leaders over the state are on the program for addresses.

Harmony was to be the "password" at the love feast of the Republicans Tuesday night in the Planters' hotel, but it was discovered that the word "harmony" had been eliminated from the dictionary in the office of the Republican state committee.

The steam roller tactics on the part of the standpatters to put former Judge Henry Lamm over the gubernatorial plate without opposition has caused a storm of protests from the friends of the other Republican entrants in the race for governor.

### G. A. R. FORT STEVENS DAY.

**Battlefield Near Washington Only One Where Lincoln Was Under Fire.**

Special to The Democrat-Forum.

Washington, September 28.—Battle scarred veterans gathered today on a battle scarred field when the Old Sixth Army Corps held a reunion on the battleground at Fort Stevens, on the outskirts of Washington. More than half a century ago the Sixth Army Corps bore the brunt of Jubal Early's spirited attack on Fort Stevens—an attack which the confederates believed was to culminate in the seizure of Washington.

Today is one of the big days of the Grand Army of the Republic Reunion which this week is putting the National capitol into the atmosphere of civil war times. Between forty and fifty thousand veterans are here. The reunion of the Old Sixth at Fort Stevens is the principal function of the day.

The Fort Stevens fight was the only one at which President Lincoln was under fire and the veterans have made their celebration of the occasion an impressive affair.

**Western Travelers Return.**

Mrs. R. F. Hamblen of this city and Mr. and Mrs. Blake Alexander of Bushnell, Ill., returned this morning from a two months' western trip, which included a tour of Yellowstone park and the Pacific coast. The Alexander children have been in Maryville with their grandparents, Mr. and Mrs. W. F. Smith, during the absence of their parents. The family will return to Bushnell in a few days.

**Two More Assessments Lowered.**

Two more changes in assessments were made by the board of appeals which met yesterday in addition to those already given. Townsend Grocery Co., was granted a reduction from $3,000 back to a $2,000 assessment. D. W. Snodderly was granted a lowering from $500 to $200.

## THORNTON SCORED

JUDGE ELLISON IN SEVERE ARRAIGNMENT OF GRAHAM MAN.

## ASSAULTED A CRIPPLE

**Prisoner Pleads Guilty and is Given Parole on $110 Fine and 6 Months Sentence—Court News.**

Alf Thornton of Graham, was the recipient of a severe scathing from Judge W. C. Ellison at circuit court yesterday afternoon when the former pleaded guilty to disturbing the peace of Mrs. Guy Hilsabeck by profanity and other ways and of assaulting her husband when he remonstrated.

Mr. Hilsabeck received injuries more than a year ago which has made his left arm useless since that time. Thornton was scored in strong terms by the judge for attacking a cripple. Mr. and Mrs. Hilsabeck have charge of the central office in Graham which public place made them the more open to such attacks and made the offense greater.

A fine of $100 was assessed for disturbing the peace. Punishment for the attack and assault was fixed at a $10 fine and six months in the county jail. The judge gave Thornton a parole, however, as the evidence was that he was under the influence of liquor at the time.

The condition of the parole is that Thornton must pay the $10 fine and $25 of the $100. The judge warned him that so much as being seen with or around liquor; loafing around places where it was known to be, or disturbing the peace would result in the rest of the punishment being placed upon him.

Harry Epperson waived a formal arraignment and pleaded not guilty to the charge of carnal knowledge. Edward N. Malvern of Quitman, furnished his bond of $1,000 and the trial was set for October 6.

An agreement and statement of facts was filed in Robert McMichael vs. Emma J. Reese.

## ARE STILL WINNING

FRENCH SAY PROGRESS IS UNCHECKED IN WEST.

## COUNTER ATTACK MADE

**But Crown Prince Was Thrown Back With Heavy Loss—Fiercest in Argonne.**

Special to The Democrat-Forum.

Paris, Sept. 28.—That the French gains continue was the official announcement of the war office today. Their progress is steady and resistless in Arras and Champagne, but they admit a strong counter attack by the Germans in Argonne.

They believe that the reason for the severe offensive by the Germans in Argonne is an attempt to relieve the pressure on the other two lines. Late advices are that in this district, where the Crown Prince is leading the Teutons, the Germans have met severe checks and have retired, leaving the ground covered with dead.

## TIME TO SEE CHAMP CLARK

**Friday is the Big Democratic Day at St. Joseph, So Get Ready.**

From present indications there will be a big delegation of Nodaway county Democrats at St. Joseph next Friday. An effort is being made to secure enough pledges to guarantee a special train back to Maryville after the speaking. The Burlington has consented to run a train back this way about midnight or whenever the crowd is ready to come, provided a sufficient number will agree to come back to justify the special service.

Judge Ellison has announced that there will be no court Friday or Saturday and this will enable the attorneys and those who have business at the court house to get away for the day. Already a large number have signified their intention to go down, but it is desired by the committee that enough go to place Maryville thoroughly on the map that day.

Arrangements are being made to take a band along, and a general good time is promised to all. Word comes from St. Joseph that Speaker Champ Clark, Senators Stone and Reed, Senator Ollie James of Kentucky, Governor Major, many congressmen and hundreds of leading Missouri Democrats will be there. There will be a great feast of speaking by the big guns and oratory will be plentiful. It is not often that so many of the big men of the country can be gotten together in northwest Missouri, and the opportunity is one that should not be overlooked.

If you have not already given your name to the committee you should do so at once, so that the special train can be secured.

## HAHN IS PRESIDENT

AND SPECIAL COUNCIL MEETING ACCEPTS RESIGNATION.

## THEN A LOT OF TALK

**But No Decision Was Reached On Method of Getting Successor—May Let It Go.**

The special meeting of the city council elected M. A. Hahn president to fill the vacancy caused by the resignation of H. L. Raines, who has moved from the Third ward. That was all they did in the way of action except adjournment.

The matter of calling a special election was threshed through rather thoroughly again, but without getting anywhere, seemingly. In calling the meeting to order, Mayor U. S. Wright said that the meeting of a council can be called by any two members, and that M. A. Hahn and W. A. Tindall had called that meeting.

He expressed regret that the city has been put to the needless expense, and said that all which were to be considered there might just as well have been left to the regular meeting next Friday night.

After his election to the presidency of the council, Mr. Hahn said that he desired to answer Mayor Wright. He said that various members had tried to arrange an impromptu meeting to get the affair straightened out without the necessity of calling a meeting. He charged the mayor with refusing to talk at that time.

Mayor Wright denied this and said that he had wanted to present a list upon which the council and the mayor could agree, and that he was ready at that meeting with such a list. Councilmen Hahn, Tindall and Garrett all said that they believed that such an agreement would be illegal, and that a man could not legally sit as councilman and successor to Mr. Raines unless elected by a special election.

Councilman Peery then observed that although the law says that the mayor shall call an election if the vacancy occurs more than six months previous to a general election, still it does not specify when he shall call it. It was intimated that the matter could be postponed until after October 4, when the six months limit would be passed; then the mayor could legally appoint.

Mr. Hahn and several others said that as the vacancy had occurred more than six months previous, an appointment never would be legal, even if the mayor waited until one day before the regular election. The president-elect said that he had talked with City Attorney Crawford and with G. R. Ellison and that was their opinion.

Mr. Peery replied that the responsibility was the mayor's and that the council had nothing to do with the matter at all. A little discussion on this point led the men into a short argument as to the merits of manager, commission and mayor-council forms of government.

Mayor Wright said that he would announce the revision of committees due to Mr. Raines' withdrawal at the regular meeting Friday night. He again suggested that he would like for the council to get together with him and pick a man from the list, thus saving the expense of an election. Various members objected that it would not be legal.

"Then why did you call this meeting which will cost the city $31?" said Councilman Peery to Councilman Hahn.

"It won't cost the city that," replied Mr. Hahn. "I want to say right here to the city clerk that I expect no pay for this night's work. Councilmen Tindall and Garrett said the same. The others by silence intimated that the four "wheels" would be very acceptable.

Just as adjournment was about to be taken, Councilman Fisher suggested that something must be done at once with the street sprinkler lest a freeze or frost cause it to burst some night. Mayor Wright said that J. L. Tilson would store it for $4 a month. It was ordered that some immediate disposition be made for the winter.

It was reported informally that $162 was collected for the sprinkling this summer. Two months were dropped on account of the rainy weather. After which the meeting stood adjourned until next Friday night.

The loss of $1,200 from the tax of insurance men and companies and the extra $1,000 cost for paving which has made the city short on cash, was given by Mayor U. S. Wright last night in an informal talk following the council meeting as a chief reason for wishing to avoid the expense of a special election.

## FIRST SNOW IN WAR ZONE

**Heavy Storm Sweeping Down on East Front—May Hasten German Climax.**

Special to The Democrat-Forum.

Petrograd, Sept. 28.—A heavy snowstorm is raging north of the Gulf of Finland. It is sweeping southward rapidly, bringing the first touch of real winter to the eastern war zone. It is expected to hasten the climax of the German attacks.

It is believed that the kaiser has ordered the capture of Dvinsk and Riga so that the forts at these places may be used as winter quarters. The war office admits that the czar's forces lost much ground in Volhynia, where the Austrians received large reinforcements.

Two Russian officers and five men were killed when a German shell struck a battleship, but the fleet was able to silence the land batteries all along the Gulf of Riga.

Washington, Sept. 28.—More than 30,000 veterans of the Grand Army of the Republic stood with bared heads and as erectly at attention as their aged forms would admit as the funeral cortege of the fourteen victims of the submarine F-4 passed today on its way to Arlington cemetery.

The bodies were recovered from the hull which sank in Honolulu harbor. They were in such shape as to make identification impossible. The bodies were placed in four coffins and buried with full military honors.

## ARDMORE DEATHS NOW NUMBER 52

HUNDREDS INJURED WHEN 250-BBL GASOLINE TANK EXPLODES.

## SHOCK AND FIRE RAZES MANY LARGE BUILDINGS

**Score Killed in Crowd Waiting for Train When Dynamite in Depot is Set Off by Jar.**

Special to The Democrat-Forum.

Admore, Okla., Sept. 28.—The finding of additional bodies in the ruins caused by the explosion of a 250-barrel tank of gasoline brings the number of known dead to forty-five. Conservative estimates on the disaster place the loss of life at sixty-five and the property loss at a million.

The tank was a railroad oil tank and the explosion is thought to have been caused by a spark from the hammer of a workman igniting fumes from a small leak in the tank. It was known to be filled with gasoline and none of the workmen who were blown to pieces were smoking.

The whole city was rocked as by a strong earthquake and buildings of several stories were thrown into ruins. Most of the deaths were due to the falling debris except those who were near the tank. Forty cars and all of the freight and passenger depots in the yards were destroyed by fire.

Streams of liquid fire were thrown in all directions, and many fires were started simultaneously, making it impossible for a fire department to cope with the situation. Many blocks of business and wholesale houses were destroyed by the fire.

The roof of the Whittington hotel was blown off by the force of the explosion. Twenty automobiles were parked near the station awaiting the arrival of a train. Not a trace of them could be found later. A large crowd was at the Santa Fe station awaiting the same train, and the high mortality is due to their presence so close to the tank.

The latest official list of the dead is fifty-two, of which only eighteen have been identified. Nineteen are negroes. Many of the injured are expected to die. All of the wooden structures east of the tracks were inhabited by negroes. They were all demolished.

The greatest property damage was done by the earth shocks. That two explosions occurred was confirmed when it was learned that a quantity of dynamite was stored in the freight depot. The injured list will go beyond two hundred and fifty. Fifteen are known to be missing.

**Announcement.**

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

All aboard for St. Joseph for the big Democratic gathering Friday. Go down and you will be glad you went.

The most refreshing bit of political news at hand this season is the announcement that ex-Governor Foss of Massachusetts has been defeated for the nomination for governor. Foss has belonged to all parties and has held office under all of them. His latest stunt was to run for the Republican nomination for governor on a prohibition platform. What he will be next depends on developments.

Missourians returning from the exposition at San Francisco say that the Missouri exhibit is not a credit to the state. Many are ashamed and humiliated that its wonderful resources are so poorly displayed. According to reports Missouri has a very neat building, where Missourians may go and register and sit awhile, but there is neither ingenuity, art nor justice in the country store display of her products. California, Oregon, Washington and Canada have exhibits that attract universal attention, but Missouri has nothing to arrest even passing attention. We do not know why this is, but it should not be. If Missouri was to make an exhibit at all, the appropriation should have been sufficient to make it worthy of the name it bears; if the appropriation was sufficient, it should have been spent wisely so as to get results. Advertising of the right sort pays always, and everywhere, but advertising that gives a stranger the impression of a backwoods, moss grown state without an original idea does not fit the imperial state of Missouri.

**THE BEGINNING OF THE END?**

The allies seem to have gotten ready at last for a vigorous offensive on the western line. It is launched at a time when the German drive against the Russian seems to be weakening, and the Russians seem to be "coming back" as it were. It is also at a time when Bulgaria is apparently ready to go to the aid of Germany unless dissuaded by a show of allied activity. If the terrible work of the last few days is to be continued it means such a saturnalia of bloodshed as the world has never known—not even during the past year—and yet nothing less would seem to bring the war nearer to a close. The Germans are well entrenched and organized, the allies are presumably well equipped now, and nothing short of desperate work will weaken either position. There will be no place so long as both sdies are equally matched and well provided with money and munitions. Therefore, frightful as it may seem, the end should be brought nearer by the kind of fighting that will force one side or the other to take the count. Until that time comes civilization can do no more than stand horrified at the ghastly spectacle.

## CONCEPTION VOTES LIGHTS

**Costello Gets Franchise—Ery Bosch, Near Pickering, Wires Eight Barns and a Garage.**

A vote of 68 for to 18 against at the special election held yesterday at Conception granted T. W. Costello, a merchant of the town, an electric light franchise and street lighting contract.

Mr. Costello proposes to maintain and operate his own plant, furnishing the town an eighteen-hour service for the first six months, and at the expiration of that time a twenty-four hour schedule will be put in operation. Mr. Costello intends to build his plant so that later he can combine it with an artificial ice and cold storage plant. Work on the power plant will be started at once.

The election judges were John Leuke, P. R. Growney and Gabe Purcell, with L. C. Smith and James Donelson clerks.

Ery Bosch, who lives a mile and a half south of Pickering, is the prize taker for the amount of service used. Five barns are being wired on one of his farms and three barns and a garage on another farm across the road. Many of the farmers expect to put in water works with a motor pump.

The company expected to get thirty-five customers in Pickering. But at this time sixty have already signed contracts.

The work on the electric light system at Graham, which the town people expected to be able to use this week, has been retarded by the overflow in the Nodaway river to such an extent that it will probably not be completed before the last of the week. It is being installed by the Mound City Light and Power company.

The grade and market price of part of the 1915 wheat crop has been so much reduced sprouting in the shock that it is not too high for hog feed. Recent feeding tests by L. A. Weaver at the Missouri Experiment Station have shown that wheat fed alone gives greater gains in fattening hogs than either corn alone or corn mixed with wheat. The addition of tankage to the ration resulted in still more economical gains, especially during the early part of the feeding period.

If ground, the wheat is better digested and three pecks produce as much gain as a bushel of unground wheat, both being soaked.

## CROSS STATE TRAIN 50 YEARS AGO

**First Run Made From St. Louis to Kansas City October 2, 1865.**

The semi-centennial, or fiftieth anniversary, of the first railroad train to be run between St. Louis and Kansas City falls on Saturday October 2. It was the first railroad train to enter Kansas City from any point. It was run over the tracks of the Missouri Pacific railroad, which in those days was known as the Pacific railroad of Missouri.

When the Missouri Pacific began operating through to Kansas City the trip required eighteen hours. It took the fast mail train 16 hours and 20 minutes to make the run now made in 7 hours and 10 minutes. Passenger fares were high. The fare between Kansas City and St. Louis was $14.50, while at present it is $5.50.

**Good, high grade Illinois lump or egg coal, $4.50 per ton. Wm. Everhart.**

**Gather Sweet Clover.**

Sweet clover is growing in abundance along the road sides in many parts of the county. A farmer near Coloma has secured the crop from a cemetery to haul to his farm and the dry stems with the ripe seed in them will be scattered over his fields and particularly along gullies. Most of the seed is now mature and should be cut at once. The high price of the seed makes it profitable to save the seed from roadside plants. Sweet clover is one of the best crops to plant upon fields intended for permanent pasture. The bluegrass is always more green and of heavier growth in alfalfa or sweet clover than where growing alone. W. M. Cook, county agent, Carroll county.

**"I hope that everybody in this country and the rest of the world, who can possibly make it, will come to San Francisco this year. My message is—Come to San Francisco and see the world." These are the words of Former Governor Glynn of New York.**

This is the best time of year to make the trip. The summer rush is over—plenty of room in hotels and trains—and the weather on the coast is fine. This is a particularly good time for farmers to go, because October is Farmers' month at the Panama-Pacific Fair. On your way take the

**UNION PACIFIC Circuit Tour *of the* Great Pacific Northwest**

for only $17 50 in connection with the Exposition rate. This may be the last chance of your lifetime to see the fine orchards, farms, ranches and scenic wonders of Oregon, Washington and Idaho for such an insignificant sum. Your expenses on this trip should be very low—the railroad fare has not been so low for years and may *never* be so again.

You may stop over at Denver, Colorado Springs, Ogden and Salt Lake City and at other points on the line or you may go to California first on your way to the Pacific Northwest.

The direct-to-California route via Union Pacific is shorter and faster than any other line.

*Besides the Exposition* you will see on this trip: Colorado; scenic Wyoming; Echo Canyon; Weber Canyon; Great Salt Lake; Idaho; beautiful Columbia River Gorge, Spokane, Portland, Tacoma and Seattle. Option of San Francisco and Portland steamers; meals and stateroom free, or scenic rail trip among the mountains to California.

The coupon will bring you complete information by return mail.

## MRS. TRULLINGER IS WELL AND HAPPY

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid.

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

**To Live in Wyoming.**

Mr. and Mrs. Clarence Hilsabeck and Mr. and Mrs. Ben Green, Jr., left this morning for Tarrington, Wyo., to make their home in the future. For the past six months, they have been living at Dell Rapids, S. D., but formerly lived in Maryville.

The ladies of St. Patrick's church will serve dinners and suppers in the parish hall Wednesday, Sept. 29. All invited. 27-28

## DR. YOUNG ADDRESSES MEN

**Presbyterian Club Holds Monthly Banquet at Church Last Night—Program Follows Dining.**

Dr. Leon Young, pastor of the First Presbyterian church of Lincoln, Neb., made the principal address last night at the usual monthly banquet of the Men's club of the First Presbyterian church, held in the school room of the church last night.

The menu was served by the Ladies' Aid society and the dinner was followed by a program. The meeting is the first one of the organization since the pastorate of the Rev. William Moll Case began, and the gathering was a very pleasant one.

Dr. Young made the chief talk of the evening, and he was followed by the president of the club, Joe Jackson, Jr., and Mr. Case, both of whom gave brief addresses.

A musical program was given by Mrs. Case, who has an unusually sweet voice, and Hal T. Hooker and daughter, Miss Halcyon, with violin and piano numbers.

Dr. Young took for his subject "Getting Results for God," and made a forceful address, holding the closest attention of his audience throughout his speaking. About forty members of the club were present.

Dr. Young also made a short address before the State Normal school and the high school students at the assembly periods this morning.

**Return from St. Joseph.**

Mr. and Mrs. Charles Nicholas returned today from a visit of several days with friends in St. Joseph.

**PIRATES WON PITCHERS' BATTLE.**

**But Braves Were Only One Run Behind—They're Tied Again.**

Their winning tied the two teams again. The Pirates meet the Tigers Wednesday and an effort is being made to get Pickering high school to play a team drawn from the three teams here Friday.

# "P. A." spells tobacco all over the world

Men of all tastes take to Prince Albert pipe and cigarette tobacco like it just about answers *all* questions! *And it does!* Quicker you get on speaking terms with this national joy smoke the sooner you'll get a whole lot off your mind. Because, it just hands you more fun than you ever got out of a pipe or makin's cigarette before. The patented process fixes that—and removes the bite and parch.

# PRINCE ALBERT

***the national joy smoke***

is *the one* brand of tobacco you can take liberties with, firing away 24-hours straight without a tongue-kick! *You get the listen of that.*

*Here's the latest member of the "old-time jimmy-niners" club. It's a fine likeness of John E. Bach, 101 years old, of Newark, N. J. He has been a pipe smoker for 80 years. Mr. Bach, who enjoys his smokes every day, gives this idea of a long life: "Smoke all you want, eat all you want, sleep all you want—and don't worry!"*

*P. A. is sold everywhere in toppy red bags (handy for cigarette smokers), 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—that classy crystal-glass pound humidor with the sponge-moistener top that keeps P. A. bang up.*

Cut out lamenting for that old jimmy pipe stored away in the rafters; stop fretting about how you'd like to roll 'em, *but you dassn't.* Men, you can lay your last cent that you'll be top-notch-tickled if you catch the spirit of this testimony and get some P. A. and go to it! Never did anything but make smokers jimmy pipe joy us and cigarette makin's happy—*and that's just what's coming to you!*

Can you sit-tight and get that P. A. aroma from somebody else's friendly old pipe or rolled cigarette? Can you pass up pleasure that's *due* you, and *coming to you* quick as you jump that fence into the Prince Albert pasture? *Come on out* and be a regular fellow who's game to take a chance for what ails his smokeappetite division!

## THE TEACHERS' PLUS

WHAT THE M. H. S. INSTRUCTORS WILL DO AFTER SCHOOL.

## TO ORGANIZE 8 CLUBS

**Wide Range of Student Activities Under Direction of Faculty Will Broaden Their Abilities.**

What the teachers of the high school will do after they are through teaching each day was announced to the pupils at their regular Tuesday assembly this afternoon. Prospects for a worthwhile year of special activities is predicted by the leaders in the work

Eight clubs ranging from debating to "topping" hurdles and from campfires to dramatics will be organized as soon as possible by the teachers who will direct and advise them. Members of these eight clubs will meet at least once a month in a general social evening. The regular meeting will be held in the afternoon after school.

The sessions of school will be dismissed ten minutes earlier on Monday, Wednesday and Friday afternoons so that so far as possible all the meetings will be held on those afternoons. This plan was considered preferable to having the pupils come back after supper.

George P. McGrew, principal of the high school, will be advisor and director of the Boys' Glee club, assisted by Miss Mary Rooker. The girl's chorus will be advised and directed by Miss Rooker. The boys will meet every Tuesday and the girls every Thursday. These clubs are open for membership to all students in the high school.

The other musical organization of the school will be the Orchestra club, which will be under the direction and advice of Miss Dora Carpenter. It will meet every week at a time to be decided upon by the members.

The dramatic club, which will be given a new name this year, will be open only to girls. Miss Alicia Keeler and Miss Virginia Robertson, teachers of English, will direct its work, which will be open to all girls having an inclination for elocution and dramatics. It will meet every other Wednesday.

The Debating club, which will also be re-christened into "Royal Cynics," or some more attractive name than debating club, is open to boys of the junior and senior classes. It will meet every other Wednesday with the purpose of giving training in all forms of parliamentary drill and public speaking. Mr. McGrew will direct it.

Miss Helen Anne Wright will continue her work among the campfire girls. Miss Laura B. Hawkins will have charge of a second division, and each of the advisers will receive help from the other teachers when needed. The two camps will meet weekly at a time to be decided by the members.

The Boys' Athletic club has already been organized and is playing a schedule of base ball games now. It is planned to get several teams from out of town to play a high school team picked from the three teams which are competing in the intra-school schedule. It is possible that Pickering high school will play here Friday.

When the weather gets too inclement for base ball, basket ball will be started in the gymnasium.

A boys' gymnasium class will be formed by Paul Becker, director of athletics, which will exercise all the boys in a series of gymnasium drills previous to basket ball each afternoon. After that all boys not caring for basket ball will be excused. The regular meetings of the class will be only three times a week. Mr. McGrew will assist Mr. Becker.

A similar arrangement will be followed in the girls' athletics, under the direction of Miss Wright and Miss Keeler. The girls will meet only twice a week, however.

Although it is considered advisable to have a teacher associated with all of the clubs, each one of them will be organized as soon as they meet, and the direction and management will be left in the hands of the students as far as can be. The chief aim of the work is to develop the abilities of the pupils, and it is felt that giving them as much responsibility as possible is one of the best ways of bringing out latent talents.

The social evenings once a month and perhaps more frequently during the winter months will be a kind of federation of high school clubs in which all the members will meet for social purposes. All the students in the high school will be invited to each of these meetings, but they will be primarily for club members.

Open sessions of most of the clubs will be given during the year with special programs to be prepared in the spring. Miss Lois Halley will be in charge of the social evenings and other collective activities of the clubs.

J. S. Shinabargar and W. R. Tilson left last night for St. Louis to attend the Republican love feast. A banquet will be held this evening and many Republican leaders over the state are on the program for addresses.

Harmony was to be the "password" at the love feast of the Republicans Tuesday night in the Planters' hotel, but it was discovered that the word "harmony" had been eliminated from the dictionary in the office of the Republican state committee.

The steam roller tactics on the part of the standpatters to put former Judge Henry Lamm over the gubernatorial plate without opposition has caused a storm of protests from the friends of the other Republican entrants in the race for governor.

**Battlefield Near Washington Only One Where Lincoln Was Under Fire.**

Special to The Democrat-Forum.

Washington, September 28.—Battle scarred veterans gathered today on a battle scarred field when the Old Sixth Army Corps held a reunion on the battleground at Fort Stevens, on the outskirts of Washington. More than half a century ago the Sixth Army Corps bore the brunt of Jubal Early's spirited attack on Fort Stevens—an attack which the confederates believed was to culminate in the seizure of Washington.

Today is one of the big days of the Grand Army of the Republic Reunion which this week is putting the National capitol into the atmosphere of civil war times. Between forty and fifty thousand veterans are here. The reunion of the Old Sixth at Fort Stevens is the principal function of the day.

The Fort Stevens fight was the only one at which President Lincoln was under fire and the veterans have made their celebration of the occasion an impressive affair.

**Western Travelers Return.**

Mrs. R. F. Hamblen of this city and Mr. and Mrs. Blake Alexander of Bushnell, Ill., returned this morning from a two months' western trip, which included a tour of Yellowstone park and the Pacific coast. The Alexander children have been in Maryville with their grandparents, Mr. and Mrs. W. F. Smith, during the absence of their parents. The family will return to Bushnell in a few days.

## THORNTON SCORED

JUDGE ELLISON IN SEVERE ARRAIGNMENT OF GRAHAM MAN.

## ASSAULTED A CRIPPLE

**Prisoner Pleads Guilty and is Given Parole on $110 Fine and 6 Months Sentence—Court News.**

Alf Thornton of Graham, was the recipient of a severe scathing from Judge W. C. Ellison at circuit court yesterday afternoon when the former pleaded guilty to disturbing the peace of Mrs. Guy Hilsabeck by profanity and other ways and of assaulting her husband when he remonstrated.

Mr. Hilsabeck received injuries more than a year ago which has made his left arm useless since that time. Thornton was scored in strong terms by the judge for attacking a cripple. Mr. and Mrs. Hilsabeck have charge of the central office in Graham which public place made them the more open to such attacks and made the offense greater.

A fine of $100 was assessed for disturbing the peace. Punishment for the attack and assault was fixed at a $10 fine and six months in the county jail. The judge gave Thornton a parole, however, as the evidence was that he was under the influence of liquor at the time.

The condition of the parole is that Thornton must pay the $10 fine and $25 of the $100. The judge warned him that so much as being seen with or around liquor; loafing around places where it was known to be, or disturbing the peace would result in the rest of the punishment being placed upon him.

Harry Epperson waived a formal arraignment and pleaded not guilty to the charge of carnal knowledge. Edward N. Malvern of Quitman, furnished his bond of $1,000 and the trial was set for October 6.

An agreement and statement of facts was filed in Robert McMichael vs. Emma J. Reese.

Sylvester K. McBride was granted a divorce from Mary L. McBride.

Emma Nash secured a divorce from Lewis D. Nash.

Jessie May Swann was granted a divorce and the restoring of her maiden name from Albert R. Swann.

## COUNTER ATTACK MADE

**But Crown Prince Was Thrown Back With Heavy Loss—Fiercest in Argonne.**

Special to The Democrat-Forum.

Paris, Sept. 28.—That the French gains continue was the official announcement of the war office today. Their progress is steady and resistless in Arras and Champagne, but they admit a strong counter attack by the Germans in Argonne.

They believe that the reason for the severe offensive by the Germans in Argonne is an attempt to relieve the pressure on the other two lines. Late advices are that in this district, where the Crown Prince is leading the Teutons, the Germans have met severe checks and have retired, leaving the ground covered with dead.

## TIME TO SEE CHAMP CLARK

**Friday is the Big Democratic Day at St. Joseph, So Get Ready.**

From present indications there will be a big delegation of Nodaway county Democrats at St. Joseph next Friday. An effort is being made to secure enough pledges to guarantee a special train back to Maryville after the speaking. The Burlington has consented to run a train back this way about midnight or whenever the crowd is ready to come, provided a sufficient number will agree to come back to justify the special service.

Judge Ellison has announced that there will be no court Friday or Saturday and this will enable the attorneys and those who have business at the court house to get away for the day. Already a large number have signified their intention to go down, but it is desired by the committee that enough go to place Maryville thoroughly on the map that day.

Arrangements are being made to take a band along, and a general good time is promised to all. Word comes from St. Joseph that Speaker Champ Clark, Senators Stone and Reed, Senator Ollie James of Kentucky, Governor Major, many congressmen and hundreds of leading Missouri Democrats will be there. There will be a great feast of speaking by the big guns and oratory will be plentiful. It is not often that so many of the big men of the country can be gotten together in northwest Missouri, and the opportunity is one that should not be overlooked.

If you have not already given your name to the committee you should do so at once, so that the special train can be secured.

## HAHN IS PRESIDENT

AND SPECIAL COUNCIL MEETING ACCEPTS RESIGNATION.

## THEN A LOT OF TALK

**But No Decision Was Reached On Method of Getting Successor—May Let It Go.**

The special meeting of the city council elected M. A. Hahn president to fill the vacancy caused by the resignation of H. L. Raines, who has moved from the Third ward. That was all they did in the way of action except adjournment.

The matter of calling a special election was threshed through rather thoroughly again, but without getting anywhere, seemingly. In calling the meeting to order, Mayor U. S. Wright said that the meeting of a council can be called by any two members, and that M. A. Hahn and W. A. Tindall had called that meeting.

He expressed regret that the city has been put to the needless expense, and said that all which were to be considered there might just as well have been left to the regular meeting next Friday night.

After his election to the presidency of the council, Mr. Hahn said that he desired to answer Mayor Wright. He said that various members had tried to arrange an impromptu meeting to get the affair straightened out without the necessity of calling a meeting. He charged the mayor with refusing to talk at that time.

Mayor Wright denied this and said that he had wanted to present a list upon which the council and the mayor could agree, and that he was ready at that meeting with such a list. Councilmen Hahn, Tindall and Garrett all said that they believed that such an agreement would be illegal, and that a man could not legally sit as councilman and successor to Mr. Raines unless elected by a special election.

Councilman Peery then observed that although the law says that the mayor shall call an election if the vacancy occurs more than six months previous to a general election, still it does not specify when he shall call it. It was intimated that the matter could be postponed until after October 4, when the six months limit would be passed; then the mayor could legally appoint.

Mr. Hahn and several others said that as the vacancy had occurred more than six months previous, an appointment never would be legal, even if the mayor waited until one day before the regular election. The president-elect said that he had talked with City Attorney Crawford and with G. R. Ellison and that was their opinion.

Mr. Peery replied that the responsibility was the mayor's and that the council had nothing to do with the matter at all. A little discussion on this point led the men into a short argument as to the merits of manager, commission and mayor-council forms of government.

Mayor Wright said that he would announce the revision of committees due to Mr. Raines' withdrawal at the regular meeting Friday night. He again suggested that he would like for the council to get together with him and pick a man from the list, thus saving the expense of an election. Various members objected that it would not be legal.

"Then why did you call this meeting which will cost the city $31?" said Councilman Peery to Councilman Hahn.

"It won't cost the city that," replied Mr. Hahn. "I want to say right here to the city clerk that I expect no pay for this night's work. Councilmen Tindall and Garrett said the same. The others by silence intimated that the four "wheels" would be very acceptable.

Just as adjournment was about to be taken, Councilman Fisher suggested that something must be done at once with the street sprinkler lest a freeze or frost cause it to burst some night. Mayor Wright said that J. L. Tilson would store it for $4 a month. It was ordered that some immediate disposition be made for the winter.

It was reported informally that $162 was collected for the sprinkling this summer. Two months were dropped on account of the rainy weather. After which the meeting stood adjourned until next Friday night.

The loss of $1,200 from the tax of insurance men and companies and the extra $1,000 cost for paving which has made the city short on cash, was given by Mayor U. S. Wright last night in an informal talk following the council meeting as a chief reason for wishing to avoid the expense of a special election.

### FIRST SNOW IN WAR ZONE

**Heavy Storm Sweeping Down on East Front—May Hasten German Climax.**

Special to The Democrat-Forum.

Petrograd, Sept. 28.—A heavy snowstorm is raging north of the Gulf of Finland. It is sweeping southward rapidly, bringing the first touch of real winter to the eastern war zone. It is expected to hasten the climax of the German attacks.

It is believed that the kaiser has ordered the capture of Dvinsk and Riga so that the forts at these places may be used as winter quarters. The war office admits that the czar's forces lost much ground in Volhynia, where the Austrians received large reinforcements.

Two Russian officers and five men were killed when a German shell struck a battleship, but the fleet was able to silence the land batteries all along the Gulf of Riga.

## ARDMORE DEATHS NOW NUMBER 52

HUNDREDS INJURED WHEN 250-BBL GASOLINE TANK EXPLODES.

## SHOCK AND FIRE RAZES MANY LARGE BUILDINGS

**Score Killed in Crowd Waiting for Train When Dynamite in Depot is Set Off by Jar.**

Special to The Democrat-Forum.

Admore, Okla., Sept. 28.—The finding of additional bodies in the ruins caused by the explosion of a 250-barrel tank of gasoline brings the number of known dead to forty-five. Conservative estimates on the disaster place the loss of life at sixty-five and the property loss at a million.

The tank was a railroad oil tank and the explosion is thought to have been caused by a spark from the hammer of a workman igniting fumes from a small leak in the tank. It was known to be filled with gasoline and none of the workmen who were blown to pieces were smoking.

The whole city was rocked as by a strong earthquake and buildings of several stories were thrown into ruins. Most of the deaths were due to the falling debris except those who were near the tank. Forty cars and all of the freight and passenger depots in the yards were destroyed by fire.

Streams of liquid fire were thrown in all directions, and many fires were started simultaneously, making it impossible for a fire department to cope with the situation. Many blocks of business and wholesale houses were destroyed by the fire.

The roof of the Whittington hotel was blown off by the force of the explosion. Twenty automobiles were parked near the station awaiting the arrival of a train. Not a trace of them could be found later. A large crowd was at the Santa Fe station awaiting the same train, and the high mortality is due to their presence so close to the tank.

The latest official list of the dead is fifty-two, of which only eighteen have been identified. Nineteen are negroes. Many of the injured are expected to die. All of the wooden structures east of the tracks were inhabited by negroes. They were all demolished.

The greatest property damage was done by the earth shocks. That two explosions occurred was confirmed when it was learned that a quantity of dynamite was stored in the freight depot. The injured list will go beyond two hundred and fifty. Fifteen are known to be missing.

**Announcement.**

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

All aboard for St. Joseph for the big Democratic gathering Friday. Go down and you will be glad you went.

The most refreshing bit of political news at hand this season is the announcement that ex-Governor Foss of Massachusetts has been defeated for the nomination for governor. Foss has belonged to all parties and has held office under all of them. His latest stunt was to run for the Republican nomination for governor on a probibition platform. What he will be next depends on developments.

Missourians returning from the exposition at San Francisco say that the Missouri exhibit is not a credit to the state. Many are ashamed and humiliated that its wonderful resources are so poorly displayed. According to reports Missouri has a very neat building, where Missourians may go and register and sit awhile, but there is neither ingenuity, art nor justice in the country store display of her products. California, Oregon, Washington and Canada have exhibits that attract universal attention, but Missouri has nothing to arrest even passing attention. We do not know why this is, but it should not be. If Missouri was to make an exhibit at all, the appropriation should have been sufficient to make it worthy of the name it bears; if the appropriation was sufficient, it should have been spent wisely so as to get results. Advertising of the right sort pays always, and everywhere, but advertising that gives a stranger the impression of a backwoods, moss grown state without an original idea does not fit the imperial state of Missouri.

**THE BEGINNING OF THE END?**

The allies seem to have gotten ready at last for a vigorous offensive on the western line. It is launched at a time when the German drive against the Russian seems to be weakening, and the Russians seem to be "coming back" as it were. It is also at a time when Bulgaria is apparently ready to go to the aid of Germany unless dissuaded by a show of allied activity. If the terrible work of the last few days is to be continued it means such a saturnalia of bloodshed as the world has never known—not even during the past year—and yet nothing less would seem to bring the war nearer to a close. The Germans are well entrenched and organized, the allies are presumably well equipped now, and nothing short of desperate work will weaken either position. There will be no place so long as both sdies are equally matched and well provided with money and munitions. Therefore, frightful as it may seem, the end should be brought nearer by the kind of fighting that will force one side or the other to take the count. Until that time comes civilization can do no more than stand horrified at the ghastly spectacle.

**Costello Gets Franchise—Ery Bosch, Near Pickering, Wires Eight Barns and a Garage.**

A vote of 68 for to 18 against at the special election held yesterday at Conception granted T. W. Costello, a merchant of the town, an electric light franchise and street lighting contract.

Mr. Costello proposes to maintain and operate his own plant, furnishing the town an eighteen-hour service for the first six months, and at the expiration of that time a twenty-four hour schedule will be put in operation. Mr. Costello intends to build his plant so that later he can combine it with an artificial ice and cold storage plant. Work on the power plant will be started at once.

The election judges were John Leuke, P. R. Growney and Gabe Purcell, with L. C. Smith and James Donelson clerks.

Ery Bosch, who lives a mile and a half south of Pickering, is the prize taker for the amount of service used. Five barns are being wired on one of his farms and three barns and a garage on another farm across the road. Many of the farmers expect to put in water works with a motor pump.

The company expected to get thirty-five customers in Pickering. But at this time sixty have already signed contracts.

The work on the electric light system at Graham, which the town people expected to be able to use this week, has been retarded by the overflow in the Nodaway river to such an extent that it will probably not be completed before the last of the week. It is being installed by the Mound City Light and Power company.

**WHEAT FOR HOGS.**

**Field-Damaged Wheat Good for Hogs Even if First-Class Grain is Too High.**

The grade and market price of part of the 1915 wheat crop has been so much reduced sprouting in the shock that it is not too high for hog feed. Recent feeding tests by L. A. Weaver at the Missouri Experiment Station have shown that wheat fed alone gives greater gains in fattening hogs than either corn alone or corn mixed with wheat. The addition of tankage to the ration resulted in still more economical gains, especially during the early part of the feeding period.

If ground, the wheat is better digested and three pecks produce as much gain as a bushel of unground wheat, both being soaked.

## CROSS STATE TRAIN 50 YEARS AGO

**First Run Made From St. Louis to Kansas City October 2, 1865.**

The semi-centennial, or fiftieth anniversary, of the first railroad train to be run between St. Louis and Kansas City falls on Saturday October 2. It was the first railroad train to enter Kansas City from any point. It was run over the tracks of the Missouri Pacific railroad, which in those days was known as the Pacific railroad of Missouri.

When the Missouri Pacific began operating through to Kansas City the trip required eighteen hours. It took the fast mail train 16 hours and 20 minutes to make the run now made in 7 hours and 10 minutes. Passenger fares were high. The fare between Kansas City and St. Louis was $14.50, while at present it is $5.50.

**Good, high grade Illinois lump or egg coal, $4.50 per ton. Wm. Everhart.**

**Gather Sweet Clover.**

Sweet clover is growing in abundance along the road sides in many parts of the county. A farmer near Coloma has secured the crop from a cemetery to haul to his farm and the dry stems with the ripe seed in them will be scattered over his fields and particularly along gullies. Most of the seed is now mature and should be cut at once. The high price of the seed makes it profitable to save the seed from roadside plants. Sweet clover is one of the best crops to plant upon fields intended for permanent pasture. The bluegrass is always more green and of heavier growth in alfalfa or sweet clover than where growing alone. W. M. Cook, county agent, Carroll county.

"I believe the Panama-Pacific Exposition to be the most wonderful creation of the kind ever seen in the world." —Edwin Markham.

"I hope that everybody in this country and the rest of the world, who can possibly make it, will come to San Francisco this year. My message is—Come to San Francisco and see the world." These are the words of Former Governor Glynn of New York.

This is the best time of year to make the trip. The summer rush is over—plenty of room in hotels and trains—and the weather on the coast is fine. This is a particularly good time for farmers to go, because October is Farmers' month at the Panama-Pacific Fair. On your way take the

## UNION PACIFIC Circuit Tour *of the* Great Pacific Northwest

for only $17 50 in connection with the Exposition rate. This may be the last chance of your lifetime to see the fine orchards, farms, ranches and scenic wonders of Oregon, Washington and Idaho for such an insignificant sum. Your expenses on this trip should be very low—the railroad fare has not been so low for years and may *never* be so again.

You may stop over at Denver, Colorado Springs, Ogden and Salt Lake City and at other points on the line or you may go to California first on your way to the Pacific Northwest.

The direct-to-California route via Union Pacific is shorter and faster than any other line.

*Besides the Exposition* you will see on this trip: Colorado; scenic Wyoming; Echo Canyon; Weber Canyon; Great Salt Lake; Idaho; beautiful Columbia River Gorge, Spokane, Portland, Tacoma and Seattle. Option of San Francisco and Portland steamers; meals and stateroom free, or scenic rail trip among the mountains to California.

The coupon will bring you complete information by return mail.

**MRS. TRULLINGER IS WELL AND HAPPY**

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid.

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

A musical program was given by Mrs. Case, who has an unusually sweet voice, and Hal T. Hooker and daughter, Miss Halcyon, with violin and piano numbers.

Dr. Young took for his subject "Getting Results for God," and made a forceful address, holding the closest attention of his audience throughout his speaking. About forty members of the club were present.

Guess Work Is DANGEROUS In Fitting Glasses

The old way of fitting glasses by guessing at the kind needed was often more harmful than going without them. NO GUESS WORK NOW. I submit the test, the correction, and the cost to you before you are asked to pay a single cent. You take no risk nor incur any obligation by coming to me about your eyes.

# "P. A." spells tobacco all over the world

Men of all tastes take to Prince Albert pipe and cigarette tobacco like it just about answers *all* questions! *And it does!* Quicker you get on speaking terms with this national joy smoke the sooner you'll get a whole lot off your mind. Because, it just hands you more fun than you ever got out of a pipe or makin's cigarette before. The patented process fixes that—and removes the bite and parch.

PRINCE ALBERT

*the national joy smoke*

is *the one* brand of tobacco you can take liberties with, firing away 24-hours straight without a tongue-kick! *You get the listen of that.*

Cut out lamenting for that old jimmy pipe stored away in the rafters; stop fretting about how you'd like to roll 'em, *but you dassn't.* Men, you can lay your last cent that you'll be top-notch-tickled if you catch the spirit of this testimony and get some P. A. and go to it! Never did anything but make smokers jimmy pipe joy us and cigarette makin's happy—*and that's just what's coming to you!*

Can you sit-tight and get that P. A. aroma from somebody else's friendly old pipe or rolled cigarette? Can you pass up pleasure that's *due* you, and *coming to you* quick as you jump that fence into the Prince Albert pasture? *Come on out* and be a regular fellow who's game to take a chance for what ails his smokeappetite division!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

*Here's the latest member of the "old-time jimmy-sinners" club. It's a fine likeness of John E. Bach, 101 years old, of Newark, N. J. He has been a pipe smoker for 60 years. Mr. Bach, who enjoys his smokes every day, gives this idea of a long life: "Smoke all you want, eat all you want, sleep all you want—and don't worry!"*

*P. A. is sold everywhere in toppy red bags (handy for cigarette smokers), 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—that classy crystal-glass pound humidor with the sponge-moistener top that keeps P. A. bang up.*
